Unusually hot and dry weather is the attributed cause of conditions.

Columbus, - The state board agriculture has refused the request of women of the state for a smoking room in a new women's building it is now erecting on the state fair grounds. The names of the netitioners are not made public. To the board's statement that cigaret smoking by women was vulgar the rejoiner was made that it was not, at least not more so than the wearing of sheath gowns, which the board permitted two years ago.

Ashtabula,-Gov. Judson Harmon addressed a crowd of approximately 5,000 people at Hartsgrove, Ashtabula county, the occasion be ing the harvest home picnic. Governor Harmon impressed upon his listeners the need of scientific farming and said that the best citizenship in America was to be found in the hearts of the yeomen.

It is averred that a mighty disturbance off shore and the creature causing it soon became dormant and lay placid on the surface several minutes, plainly outlining a living monster, estimat-

Harding will stake his chances of defeating Judson Harmon for governor on the willingness of the people of Ohio to give the Taft administration at Washington a blanket indorsement next November. The Republican candidate for governor declared that the big issue in Ohio this year is whether the president's own state is going to stand by him. The gathering of party potentials failed to bring any agreement on the chairmanship of the campaign committee. As a matter of fact the selection of a man to handle the campaign has been deferred until after the wishes of President Taft are ascertained. The chairman will be agreed upon before Mr. Harding returns from his visit with the president. Steubenville. - Patrick McMahon,
